GLASS HARDWARE

Sistema scorrevole in kit ad anta singola o doppia con fissaggio a parete o soffitto.

Sistema corredero: kit para una puerta o dos con fijación a pared o techo.

Set sliding system single glazed or double glazed with ceiling or wall fixing.

Schiebesystem Kit mit einzel- oder Doppel-flügel mit Befestigung an der Wand oder an der Decke.

Minusco propone Slak2 (prodotto da Colcom), uno scorrevole con veletta dalle dimensioni ridotte. Il leggero profilo di copertura nasconde un meccanismo di scorrimento robusto e affidabile. Slak2 è predisposto per il fissaggio a parete o a soffitto; nelle soluzioni con anta singola o doppia. Proprio per questo Slak2 si adatta ad un'ampia tipologia di contesti architettonici, sia moderni che minimali. Le pinze a vista del kit BS06 sono disponibili nelle consuete finiture Colcom.

Minusco presenta Slak2, (producido en Colcom) un sistema para puerta corredera con tapas embellecedoras de dimensiones reducidas. El ligero perfil de cobertura esconde un mecanismo robusto y fiable. Slak2 está pre-dispuesto por fijación a pared o techo, y permite instalar una o dos puertas correderas. Por todo esto Slak2 se adapta a una amplia tipología de contextos arquitectónicos, sea moderno o minimalista. La pinza a la vista esta disponible en los acabados habituales de Colcom.

Minusco proposes Slak2 (made by Colcom), a sliding system with spandrel panel with reduced dimensions. The slight covering profile is hiding a strong and secure mechanism. Slak2 is arranged for two tipologies of fixing; on the ceiling or on the wall with different solution: single or double glazed. For this reason Slak2 is suitable for many tipologies of architectural contexts both modern and essential. The visible clamps of set BS06 are available in the usual Colcom finishes.

Minusco stellt Slak2 (bei Colcom hergestellt) vor. Es ist ein Schiebesystem mit Anlauf von reduzierten Maßen. Das leichte Abdeckungsprofil versteckt ein robustes und zuverlässiges Schiebemechanismus. Slak2 hat Wand-Deckefixierung, in den Versionen mit einem einzelnen Glasflügel oder Doppelflügel. Auf diesem Grund ist Slak2 für viele architektonische Rahmen geeignet: moderne aber auch minimale. Die Sichtbaren Bänder des Kit BS06 sind in den üblichen Colcom Oberflächen verfügbar.
